

Rolatube Tripod System

The Rolatube large rugged tactical tripod system is compact and portable and is designed for mounting and deploying surveillance technology. By adding an adaptor, it can also be used as a support for a Rolatube mast, removing the need for guy ropes where conditions allow.

Strong and lightweight, a Rolatube large rugged tactical tripod system has a low packed volume as well as being easy and quick to deploy. Its inherent strength enables top loads of to 30kg to be mounted making it suitable for a wide range of equipment requiring a stable platform.

- Construct Tripod Leg & Body:** PP-Glass Fiber composite, High Performance ABS.
- Tripod Leg Cover:** UV resistant nylon fabric cover in Multicam or solid black color.
- Environmental:** Water & dust proof. Maintenance free.
- Specification:** Complies with the relevant sections of MIL-STD-810G.
