

## Single Tube Mast System – 3”

The Rolatube tactical mast system is compact and portable and can be used to deploy radio communications, data and surveillance equipment at greater heights. Set up and recovered in minutes with minimum personnel, the mast system contains no moving parts to jam, freeze or that need maintenance. Weather resistant and recoverable even when iced up, the mast maintains operability in the harshest environments.

- **Construct & Finish Mast Body:** PP & glass fiber composite. UV resistant polyester fabric cover.
- **Mast Cover:** UV resistant nylon fabric cover in Multicam or solid black color.
- **Environmental:** Water & dust proof. Maintenance free.
- **Specification:** Complies with the relevant sections of MIL STD-810G.
- **Wind Rating:** 100kmh (62mph) bare mast only, secured with guy ropes and ground pegs
